# BINIDU RANSINGHE

## FULL-STACK DEVELOPER

## PROFILE

Creative and curious full-stack developer experienced in web, desktop, and AI-based tools. Passionate about building real-time apps, database systems, and user-friendly creative utilities. Skilled in rapid prototyping and turning ideas into production-ready solutions.

## PROJECTS

### Chatnix

- Real-time collaborative code editor with live chat.

### Hacknix-Meetings

- Full video conferencing app with chat and screen sharing.

### Readme-Generator

- Auto-generates rich README.md files from repo links.

### Edu-Resources-Portal

- Educational hub with books, model papers, and videos.

### Humanize AI

- Enhances machine-generated text to sound more natural and fluent.

### Wireframe Generator

- Converts sketches/UI concepts into wireframes using AI canvas tools

### DBINI

- Custom database management system.

### Movie-Party

- Sync movie watching across multiple users.
